Watermark **SECURITY Inc.**

AUTHORIZED KEYHOLDER & SYSTEM USER FORM - (Please Print)

CAUTION: Once submitted, this form will overwrite any previous keyholder/user information on file.

Subscriber Name:	Subscriber API Account Number :
Property 911 Address :	Property Phone Number :
Subscriber Contact Phone Number:	Subscriber Email Address:

1. Do you wish to contract Watermark Security Inc. as the Premium Keyholder (GUARD)? ☐ **YES** ☐ **NO**

NOTE: If yes, you have provided a set of keys for the property and are authorizing Watermark Security to accept all calls from the API monitoring station on your behalf. Watermark will act as the exclusive Keyholder and will respond to all alarms including meeting the authorities on site if necessary. (Geographical restrictions and additional charges apply.)

2. List ALL Authorized Security System Users including family members, friends and tradespersons (i.e. Cleaning lady, Nanny etc.) and provide unique 4 digit Punch Codes (the number programmed into the alarm panel) and Passcard ID (personalized passwords) for each. For Subscribers and alternate individuals that are assigned the additional responsibility of being a Keyholder, indicate contact phone numbers and the order in which you would like these persons contacted.

NOTE: Where possible, local Keyholders are recommended as they will be required to meet the authorities on site with a key in the event of an alarm. The monitoring station will continue to phone Keyholders in the order that they are listed until someone is reached in person. If Watermark guard services have been contracted, the monitoring station will only contact Watermark.
